

“One Meter” Power Monitoring System (10 channels, 4 visible at left)

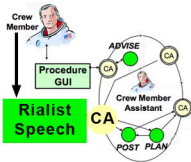

Agent-Based System Integration

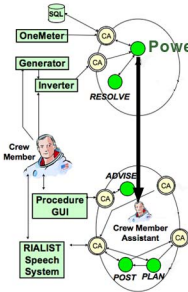

**OneMeter telenets data to
Communication Agent (CA),
which forwards it to
Power Monitoring Agent...**

**Crew Member's voice inquiry
is formalized by RIALIST
and relayed via CA to
his/her Personal Agent**

**(on laptop
computer for
this crew
member on
lower deck)...**

Power Monitoring Agent

Power Monitoring Agent sends response text to Personal Agent...

**Personal Agent submits
response text to RIALIST
for conversion to speech**

**(transmitted on
Crew Member's
headset)**
